

Company Portfolio

For more than 20 years Frank Alfter, former head of the illusionist duo „Magic Orvellis“, is producing the most successful special magic shows for business clients as well as high class events throughout Europe.

Today he contributes this expertise to his company Wonder Works Entertainment Consulting, which was founded in 2002.

Even though we have produced entertainment shows for many amusement parks, diner theatres, casinos, circuses and cruise ships nationally as well as abroad, our company „Wonder Works Entertainment Consulting“ is relatively unknown to decision makers in the entertainment industry.

This might be because we put the particular customer into the spotlight instead of ourselves at the daily performances of many of our shows.

This is part of our company policy and actually intended.

Our shows are custom-made according to our client`s desires and requests as for example to those of an amusement park. They are inserted into the park`s overall picture and therefore mostly cannot be recognized as a third-party production from an outsider.

Another reason is that the production of a show is only one branch of our business. The second main focus of Wonder Works Entertainment Consulting is the management and representation of Germany`s most successful illusionist Jan Rouven, who even has presented some of our productions for amusement parks and diner shows in the past himself. For three years in a row he was engaged as headliner at one of the biggest revue shows in France, at the „Royal Palace“ near Strasbourg. By now he is a desired guest at big company events and product presentations as well as at TV shows (German channel „ARD“ – “Feste der Volksmusik” hosted by Florian Silbereisen, Grand Cabaret du Monde in France etc.) worldwide.

Since 2003 we provide illusions for all shows of „Stars in der Manege“ (broadcasted on channel “ARD”). This show is shot in Munich, Germany and broadcasted nationally on the second Christmas day each year.

For the second time after 2005 we have also counselled the tricks and produced the illusions of the „Höhner Rockin Roncalli Show“ for the famous band „Höhner“ and the Circus Roncalli. This show will also be shown at the 2007-edition of “Stars in der Manege”.

We provide everything - starting from the conception up to the complete show including performers, costumes, music, stage direction, props and stage sets.

Since we have Europe`s biggest illusion props storage including up-to-date highlights imported directly from the show mecca Las Vegas, magic and illusion have a decisive role in many of our shows. Magic shows have the big

advantage that almost every topic is possible. A Western show with poker-touch, a show in Las Vegas revue dimension up to the modern hip hop street-style illusion show – the sky's the limit!

In order to provide the shows with the necessary setting, we cast professional dancers for our productions and arrange an individual show ballet of various sizes. That way illusion effects are combined with stirring choreographies and striking costumes – the audience experiences this as a spectacular symbiosis. Our Australian choreographer Bradley Cleary is in charge of the castings as well as the choreographies.

Since December 2006 we exclusively arrange the illusion shows aboard the international cruises of the two German shipping companies „Hansa Kreuzfahrten“ and „Delphin Cruises“.

After we had produced a magic act in 2006 with the topic „The tropics“ for the diner show at the „Tropical Islands“, we were contracted in December 2006 to produce the entire entertainment programme for 2007 due to the big success.

In close consultation with the marketing department of the „Tropical Island“, „SULAPAN –Die Magie der Elemente“ (Sulaplan – the magic of elements) was developed, a 75-minute spectacular diner show in Las Vegas dimension. Besides that we present 3 different daily shows (Circus of Wonders; Simsalabim; Showcocktail) at the Tropical Village and currently the new summer-evening show „MAJALAN – Die Kunst zu verzaubern“ (Majalan – the art of enchantment), which premiered on May 24th, 2007.

Next to our approved magic highlights we present first-class performers from all over the world in those shows. By doing so we expand our show competence additionally and therefore can meet every requirement for show productions.
